PROFESSIONAL SUMMARY

4th-year BSIT student majoring in Software Technologies at West Visayas State University with a strong academic foundation in full-stack development, UI/UX design, and project management. Seeking an OJT position in software development to apply skills in real-world projects and grow as a developer.

TECHNICAL SKILLS

Languages & Frameworks: Python, HTML/CSS, Dart, JavaScript, SQL, Flutter, React.js
Tools: Git/GitHub, Figma, Canva, Visual Studio Code, Draw.io, Microsoft 365, Google Workspace
Cloud & Databases: Amazon Web Services, REST API, Google APIs, Supabase, MySQL

ACADEMIC PROJECTS

AiBreCare | Lead Developer

- An AI-powered mobile application that aids nursing students with objective feedback on fundamental clinical skills.
- Led the development of an Android mobile application using Flutter and designed the application's relational database schema.
- Integrated cloud database management using Supabase and cloud services including Gemini AI, AWS Lambda, AWS S3, and AssemblyAI.
- Collaborated with a team of 5 following an iterative & incremental methodology and managed the application's version control via GitHub.

Tibiao Bakery Co. Website | UI/UX Designer

- A web application for Tibiao Bakery Corporation, designed to replace the manual system with a more efficient and reliable platform.
- Designed and developed the UI/UX of the web application using the React.js framework.
- Designed the system's Unified Modeling Language (UML) Diagrams.
- Collaborated with a team of 6 following a kanban methodology and managed the system's version control via GitHub.

CozyTask | Lead Developer

- A mobile application developed to enhance task management and organizational efficiency for students and working professionals.
- Led the development of the mobile application using Flutter, designed the application's relational database schema, and integrated SQLite for local storage.
- Collaborated with a team of 7 following an agile methodology and managed the application's version control via GitHub.
